"Extra-Fashioned."
Few People Realize How Much These Two Words Imply of Comfort and Convenience.

They refer to the manner in which the LEWIS KNITTING CO'S UNDERWEAR is shaped to fit across the chest, around the thighs, legs, arms, hips and neck—and mean—more fullness where the form requires it WITHOUT STRETCHING THE GARMENT.

Now that you understand this—think how great a convenience it must be, how really gratifying not to be obliged to "last," as they say of shoes, your flannels on your own body that they shall fit. Because they are yours is no reason for believing that they FIT you, they do not any more than they would if they were loose. When your flannels are tightly drawn by stretching as they are tugged and pulled on—the fibre is drawn—the fabric is thinned, and the result is that there is constant tension and wear, to say nothing of the discomfort of tightness.

THE LEWIS KNITTING CO'S GARMENTS are made in union suits, shirts, drawers, pants and vests, of finest materials, are comfortable, easily adjusted and pleasant to the skin. They are not expensive, and when the wear and tear (particularly the tear) on the ordinary flannels is considered they are economical. They are "Extra-Fashioned" to fit naturally, tailor-trimmed and the Original Derby Ribbed Dress Reform Underwear, and the only underwear containing Lewis Tension Yoke (patented), without which ribbed underwear is so unsatisfactory.

HELD OFFICERS AT BAY.

Two Bold Criminals Resist Arrest at Chicago.

Their Companions Create a Panic, and the Men Escape During the Excitement.

CHICAGO, Dec. 21.—John McGrath and Walter Gayner, members of the McGrath-Mortell gang, who figured conspicuously in the murder of Police Officer Freyer several years ago, held a police officer and his brother at bay in the Chicago and Erie suburban train at Fifty-third street last night, while two or three companions caused a panic by shooting indiscriminately through the windows of the coaches.

Officer Bailey, of the Central station, together with his brother, boarded the train in Chicago, which reached the freight yards at Forty-first street at 11:30 o'clock. At that place four men boarded the first coach. Detective Bailey recognized McGrath and knowing that he was wanted put him under arrest. With an oath McGrath declared that no officer could take him single handed, at the same time thrusting a revolver in the detective's face.

By this time Bailey's brother had noticed the disturbance and he also started to the rear. He was promptly stopped by Gayner, who, with revolver in hand, told him to throw up his hands under penalty of death. McGrath gave instructions to his companions to search Bailey's pockets and take everything he had.

All was excitement in the car. The few women in the coach rushed to the front and huddled together in one of the seats. In the meantime McGrath's companions began shooting their revolvers through the windows, and the lamps were shot out and confusion reigned. Finally McGrath told the men to leave, which they did, at the same time telling Gayner to follow him. Before going he struck Detective Bailey on the side of the head, thus gaining a start. When Bailey and his brother recovered McGrath and Gayner had disappeared among the freight cars.

PLOTTING REVOLUTION.

Gold Leaders Seeking to Inaugurate One in Mexico.

MONTERREY, MEX., Dec. 21.—It was learned yesterday that Cecilio Salinas, who was sentenced Monday to three years imprisonment by the federal court at San Antonio, Tex., for violation of the United States neutrality laws, spent several months in Monterrey and at other points in Mexico, working up a sentiment for the revolutionary movement, which was recently started on the Rio Grande border. He is known to have distributed secretly a large amount of revolutionary literature in the different military camps in northern Mexico. He is believed to have secured many adherents to the cause among army officers who stand ready to join the movement the moment the time arrives for the uprising and invasion. It has also been authoritatively learned that Julian Flores, who commanded one of the divisions of Garza's revolutionary army, had the boldness to visit the city of Mexico, where he is believed to have had secret conferences with the leaders of the clerical party, which has been so severely oppressed under President Diaz's administration.

IMMIGRATION MEETING.

Joint Meeting of House and Senate Committees.

WASHINGTON, Dec. 21.—An immigration law will be enacted this session. It will probably be Senator Chandler's bill, providing for a total suspension of immigration for one year. Joint meeting of the house and senate committees on immigration was held today and the various measures now before the committees were discussed.

A reporter saw Senator Chandler immediately afterward. "I find the sentiment in my committee overwhelmingly in favor of the bill," said the senator. "We will therefore report favorably as the final result of the committee's deliberations I cannot say. Perhaps something else will be agreed upon. There is, however, no doubt that something will be done."

BOLD ROBBERY.

The Sum of $7,000 Stolen From an Express Company.

SARNIA, Ont., Dec. 21.—A bold robbery was perpetrated yesterday during the noon hour whereby a sum of money estimated at $7,000, was stolen from the office of the Canadian Express company here. The agent, T. H. Cook, has been ill for about a week, and confined to the house. The clerk in charge of the office locked the safe and office at 12:20 o'clock and returned at 12:55 o'clock and found the safe and office door open and the contents of the safe gone. Entrance was effected by the transom door at the back and the safe opened by a duplicate key, which shows that the robbery was committed by some person familiar with the key and office.

Serious Encounter.

BOMBAY, Dec. 21.—Advices received from Rajkote, capital of the state of that name in the province of Guzerat, report an encounter between a body of Dacoits and a force of native policemen under command of British military officers. Lieutenant Gordon, of the Bombay lancers, and four policemen were killed. No mention is made of the loss sustained by the Dacoits It is probably unknown.

Under One Control.

COLUMBUS, Ohio, Dec. 21.—Yesterday the supreme court sustained the action of the Hamilton county circuit court, which places the English party in control of the Ohio and Mississippi railway and virtually makes the road run under one control with the Baltimore and Ohio on top.

SWEATING SYSTEM.

Charman Warner, of the House Committee, Talks.

He Visits the Principal Cities of the United States and Says the System Prevails in All.

WASHINGTON, Dec. 21.—Representative DeWitt C. Warner, of New York, the chairman of the sub-committee of the house committee on manufactures, which was directed to inquire into the sweating system, has just returned to Washington after a thorough investigation of the workings of the system in the cities of New York, Chicago and Boston. On being asked how the condition of New York compared with that of the other cities, Mr. Warner said:

"They are so similar as to be scarcely distinguishable, except as modified by the different conditions of the several cities. In Chicago, for example, this sweating business is carried on in quarters where the streets are so practically bottomless and the buildings are rotten and disgusting, as well as inadequate and unfitted for human occupants These buildings are generally frame and two stories in height, with basements generally below the sidewalks. Hence, there is nothing like the possibility of crowding that there would be where those quarters are more closely and substantially built up. The conditions of the sweating industry there however, are as disgusting and the ability of contagious and epidemical diseases as great as in New York. In Boston the industry seems to be carried on almost exclusively in extremely old, but fairly substantial buildings in the most crowded quarters, so that while the municipal conditions are better, the result is an even greater liability in contagion in the more limited area covered. In New York the streets are as a whole much better paved and cared for than in Chicago and much more spacious and afford more breathing than in Boston. While the tenements in New York are on the one hand far more like human hives than those in Chicago and Boston, they are more recently and solidly built and therefore on the average much less squalid and uncomfortable. The conditions are practically identical and the general result varies only by essential local indications."

"What do you find to be the attitude of the local authorities," was asked

"One of prompt co operation in every case and one of frank admission that the evil was beyond the power to handle. As to dangerous contagion there is equally little distinction. In Chicago we saw the scarlet fever signs posted up where the entering agents had been carried on and in a neighborhood where it was still being prosecuted in Boston we stumbled into proximity with the disease in a room while the household manufacturing of clothing was going on. It was not occupied by the same family but it opened into the same corridor. New York was one of the most typical instances of which was where we found poor wretches working under the most filthy conditions at 10 o'clock on Sunday night, when, in the next block to them, typhus fever had broken out only last summer." "The members of the committee arrived here yesterday," continued Mr. Warner, "and we expect that they will complete the taking of the testimony today, and then it will make its report at the earliest possible moment."

WITHOUT MONEY.

A Newspaper Man Making a Tour of the World.

CHICAGO, Dec. 21.—Sven Wiren, a Danish newspaper man, arrived in Chicago yesterday, bound around the world. Two months ago he left Copenhagen penniless and intends to make the tour in eighteen months without money, to demonstrate, as he puts it, "the power of the press." Mr. Wiren is not quite nineteen years old. He wears glasses and talks six or seven languages. The young Danish newspaper man represents the Journal Dannebrog, the organ of the Copenhagen liberals. He is incumbered by a trunk and a dress suit. After Christmas Mr. Wiren will leave for San Francisco carrying with him his precious trunk. From there he will go to China and will endeavor to make his way home through Asia.

Christmas Holidays.

LIVERPOOL, Dec. 21.—The Christmas holidays in the corn market will include Saturday, December 24, and Monday, December 26. In the provision market Tuesday will be observed as a holiday in addition to Saturday and Monday.

Actress Ill.

LONDON, Dec. 21.—Mrs. Lillie Langtry, the actress and former friend of the prince of Wales and Fred Gebhardt, is seriously ill with peritonitis. Apprehension is felt that she may not recover. Mrs. Langtry is forty years of age.

Mr. O. L. Ferry received the following telegram from Mr. H. T. Moore, of the Cincinnati Enquirer staff, who was at Lima, Ohio, last night, where "Friends" was produced: "Don't fail to see 'Friends' at your theatree tonight. The play is fine and the cast inc mparable." Mr. Perry says Mr. M. ore is one of the best dramatic critics in the west.

GRAIN BLOCKADE.

Big Lot of Wheat and Corn Piling Up in the West.

The Elevators at St. Louis and Duluth Glutted With Millions of Bushels.

ST. LOUIS, Dec. 21.—The St. Louis grain market is glutted to such an extent that a grain blockade has resulted. There are now about 7,000,000 bushels of wheat in the elevators and a large amount on the tracks. The stock of corn is increasing at the rate of over 200,000 bushels a week and is coming in rapidly. The consequence is that the elevators cannot handle the receipts and that the grain is piling up on the tracks. This has caused a freight car famine in the country tributary to St. Louis.

DULUTH, Minn., Dec. 21.—Wheat continues to come into the city very rapidly and the wheat blockade predicted a few days ago seems almost realized. The increase in stocks held here and at the elevators on the superior side of the bay, also under the control of the Duluth board of trade, has the last week been 1,640,000 bushels and the total stock of wheat here aggregates 12,734,000 bushels. In the week the elevators of the Duluth Elevator company have been culled, one of the two bill elevators of the great northern road is full and there is enough going into the other to fill it in three days. The elevators of the Lake Superior and Union Improvement companies have a capacity for some 500,000 bushels more. The receipts for yesterday morning were 657 cars or about 400,000 bushels, and this flood of grain continues.

The country elevators belonging to the Duluth system, with about 4,500,000 bushels capacity, are full and will not be able to act as reservoirs. Long before the opening of navigation all the capacity at the head of the lakes will be full of wheat and there will be at least 16,000,000 bushels for the roads to carry down in the early weeks of navigation. The wheat is of the highest grade. There are also in store here 220,000 bushels of flax and barley, making the total grain in store 13,000,000 bushels.

JUST ABOUT THE SAME.

So Says Blaine's Doctor in Speaking of His Condition.

Callers at His Home Believe That the End of the Great Man's Life is Near.

WASHINGTON, D. C., Dec. 21.—At Mr. Blaine's house this morning inquirers were told that he had passed a comfortable night and was about the same as he was yesterday. Dr. Johnston paid his usual early morning visit to Mr. Blaine today. The slumbers of the distinguished patient had not been disturbed during the night; he had rested comfortably, and the doctor was able to give to the family the assurance that Mr. Blaine's condition was no worse than it had been the day before, when he was, speaking in a relative sense only, getting along fairly well.

To a reporter Dr. Johnston said: "Mr. Blaine is just about the same as he was yesterday, that is to say that there is no appreciable change since yesterday. I think I told you then that he was doing pretty well. No," added the doctor, "there is nothing special to say this morning about his condition."

The freedom of recurrence from the dreadful attack of depressed vitality to which Mr. Blaine was subjected Sunday has tended to cheer the members of Mr. Blaine's household and the callers were informed that "Mr. Blaine rested comfortably and seems a little better." This expresses the hopeful view of the situation and was a trifle more sanguine than the very careful and conservative statement of the doctor. The public interest in Mr. Blaine's condition, while strong, is not so keen as it was a few days ago, when, for the first time, there came a full realization of the fact that he was near the end of his brilliant career, and as a consequence there were not many callers today at the old fashioned square red brick house, where Mr. Blaine has made his home for the last few years, and the family were able to have the comparative quiet they wish.

Representative Bingham, of Pennsylvania, was one of the early morning callers. The news he received at the door was good as far as it went, but Mr. Bingham felt no more than temporary relief at it. "I am afraid there is no hope," he said. "It is the end that unfortunately must come to all of us and Mr. Blaine is comparatively young. His loss will take a great man out of the government." It is entirely premature to discuss as yet of the removal of Mr. Blaine from Washington to a climate more favorable to him. He has only recovered slightly from the severe attack of Sunday and is still in a state of extreme weakness, in which he has little thought of what is going on about him. Another attack that would still further reduce his vitality is, of course, to be feared, though it is hoped to avert it and even should the very best happen and he rapidly recover, it will be some time before his removal can be given the slightest consideration."

Senator Kenna Getting Better.

WASHINGTON, Dec. 21.—Senator Kenna, of West Virginia, is slowly improving in health. He is, however, still too weak to sit up and it will be some months before he will be able to resume his public duties.

Mrs. J. Wharton entertains the Wednesday club this afternoon.

CABINET TALK.

Don M. Dickinson for Secretary of State,

Senator Carlisle for Secretary of the Treasury, and Charles A. Dana for Minister to England.

WASHINGTON, Dec. 21.—The latest political story is that Don M Dickinson is to be the secretary of state. Mr. Dickinson has been in the city for several days, but refuses to discuss political matters. His friends, however, say that Mr. Cleveland has offered Mr. Dickinson the state portfolio. They also say he has worked very assiduously for the success of the democratic party, is a rising man in the western states is personally acquainted with democratic politicians throughout the country and has given considerably study to international questions.

Senator Carlisle, of Kentucky, it is said by his friends, has been asked to accept the office of secretary of the treasury in the cabinet of President Cleveland. President-elect Cleveland is reported to have asked Mr. Carlisle to accept the position soon after election. To the president-elect it seemed there are many elements in the make-up of the Kentucky senator and statesman that peculiarly fit him for the hold of the treasury. From what the friends of Mr. Carlisle say, it is apparent that the idea controlling Mr. Cleveland has been to offer the place to Mr. Carlisle, was that Mr. Carlisle's familiarity with the finances, the conservative and careful mind and his intimate acquaintance also with the tariff and its effects, would make him peculiarly useful as a guide for a house that should have the treasury with it in preparing any measure of revenue reform.

New York, Dec. 21.—The World this morning again urges Charles A. Dana for the position of minister to England. It says editorially: "When President Cleveland appointed Edward J. Phelps as minister to England he recognised the importance of having the United States represented at the court of St. James by a man of intellectual force, scholarly attainments and national standing. In that selection Mr. Cleveland must realise that he made no mistake; that he acted to the interest of the country as well as for the credit of his own administration. He must also see that he may proceed on the same principle with entire safety in making his next appointment of a minister to England."

TWO VESSELS AGROUND.

Heavy Fog is the Cause of the Accident.

LONDON, Dec. 21.—During the heavy fog which rested last night over the London and British channel, the British armored vessel, Inflexible, bound for Venice, ran aground near Dingeness, and another vessel ran aground near by. They were finally floated off without serious damage.

TWO FRESH CASES.

Cholera Still Continues to Alarm Hamburg People.

HAMBURG, Dec. 21.—Two fresh cases of cholera were reported yesterday and the doctors are making examinations with a view of detecting the bacteria. The newspaper Boresenhalle states that the United States consulate will today resume the furnishing of vessels with clean bills of health.

The funeral of Henry Tomeke will be held from 73 Smith street, at 2 p. m. tomorrow. The deceased was a young man who came here from Germany about ten days ago

TEACHERS' INSTITUTE.

One of the Most Interesting Yet Held.

State Superintendent H. V. Vories Not Likely to be Present—No Meeting This Evening.

"This has been one of the best teachers' institutes which we have had in the county," said one of the superintendents to THE SENTINEL this morning. "There has been a large attendance and all our instructors have stated that the attention to their remarks was excellent. The only fault I have to find is with the heating of the room where we meet, it is too cold, but it is not the fault of the Y. M. C. A. but the poor gas supply of the past few day. We had intended to have an address this evening by Prof. R. G. Boon, of the state university, at Bloomington, but are compelled to forego the pleasure on account of the cold room. I was in hopes that State Superintendent Vories, of Indianapolis, would be present but I almost fear that he will not be here."

This morning the exercises were opened at 9 o'clock by devotions led by Rev. Northrop. Professor Boon then followed with a most interesting talk on "The Science of Education." He said that children learn by contact of the mind with the external world and that they have a natural tendency to education. All reinforcements are from the child and not from without. All children have a natural love for knowledge and education is a growth and not a cramming process.

Professor C. T. Lane, of the city high school, followed with an able address on United States history, which was listened to with close interest. His remarks were full of good points.

Miss Clark, of the city schools, next followed upon the subject of her method of teaching music and introduced a class of about twenty little ones, who rendered some selections of vocal music which astonished many of the teachers. The class showed great advancement in this branch.

Mrs. Sarah E. Tarney-Campbell, of Auburn, next talked upon the subject of "Method in Geography." Her points were excellent. She stated that in her opinion the teacher should have a full knowledge of the whole scheme of teaching this branch so as to show the relation of mankind to the purely physical features of the earth. The climatic features of the county would therefore form an important part in teaching geography. One should pass over the polar regions and frigid and arid lands of north and south to countries where man was in the most advanced stage of civilization.

Professor Boon then continued his talk on the science of education. He dwelt particularly upon the fact that the teacher should have a knowledge of current events outside of the school. He told of a certain teacher who said that Longfellow was the English laureate. This, however, is not to be compared with a case which recently fell under the observation of THE SENTINEL where a certain school teacher of a neighboring town had never heard of Andrew Carnegie or Sir Edwin Arnold, and yet held a life diploma.

THEY WILL WED.

An English Nobleman and an American Lady.

LONDON, Dec. 21.—The marriage of Miss Wayne Cuyler, of Baltimore, Md., to Sir Philip Henry Ryan Egerton will take place on January 4. Sir Philip is a nephew of the sixth earl of Selkirk. He has residences at 103 Eaton square, London; Oulton Park, Tarporty, Cheshire, and Broxton, Old Hall, Cheshire. He is a captain in the Fourth Battalion of the Cheshire regiment. Miss Cuyler is a daughter of the late Patrick Cuyler of the United States engineering corps. It is claimed by her friends that she is one of the most beautiful women in the world. Sir Philip is known in American society. He, in company with his mother, who is a daughter of the first baron of Londesborough, having passed part of last summer at Newport and Lennox, where several entertainments were given in their honor.

THE BABY DID IT.

Pulled the Lamp From the Stand and Two Deaths Ensue.

SARGENT, Colo., Dec. 21.—About 7:30 o'clock Monday night the boarding house and residence of Mrs. S. Sims and Mrs. R. Hinckley, of White Pine, twelve miles north of this place, was destroyed by fire and Mrs. Hinckley's two children, a girl aged five, and a boy twelve months of age, were burned to death, it being impossible to get near the building after the fire was discovered. The mother was frantic and rushed screaming to the building and was terribly burned in the face and body before she could be dragged away. It is supposed that the fire was caused by the baby pulling the lamp from the stand, as it was left playing on the floor while the mother went to get medicine for the little girl, who was sick in bed. Robert Hinckley, the husband and father, was crushed to death a few weeks ago while working in a mine near here.

THE INDIANS' WAY.

They Hang a Man to a Tree Because He Shot His Wife Dead.

GUTHRIE, Okla., Dec. 21.—A white man named Cora recently sued an Indian for unpaid wages and secured judgment in the United States court. A party of Indians called at the man's house a few nights ago, bound him and carried him into the woods, where his body was found hanging to a tree yesterday.

WILL GO TO PRISON.

Emmett Stultz Gets Thirty Months for Forgery.

John Boyle Not Guilty of Obstructing the Highway—Other Court News.

Emmett Stultz, the young fellow who forged several checks on merchants in this city and secured money on them, among which was a check for $9 on Robert Spice, the pump manufacturer, pleaded guilty in the circuit court this morning and was sentenced to prison for two and one-half years. J. R. Bitzenger was the prisoner's attorney and had all the charges against the young fellow dismissed except the Spice forgery.

The case of the state vs. John Doyle et. al. for obstructing the public highway was tried in the circuit court yesterday. The jury was out for some time and returned a sealed verdict which was opened by Judge O'Rourke this morning. It found for the defendant.

Peter Barrand and Esther E. Loyer, George J. Kibiger and Eunice Emigh have been licensed to wed.

Last Wednesday evening seventeen turkeys and four geese were stolen from the farm of Mrs. Sarah Fleming, two miles out on the Goshen road. Yesterday twelve of the turkeys were recaptured, and the owner ordered the parties not to be prosecuted.

August Beverforden has been pleaded in Justice France's court on a debt of $18.50.

In the superior court the case of Edward Whitmore vs. Jacob Sherrick to quit title resulted in a verdict for the plaintiff.

The case of Christian H. Rose vs. Fort Wayne Water Power company was continued until the 25th of January, in the superior court.

The county commissioners yesterday appointed Joseph H. Barra as trustee of Cedar Creek township made vacant by the death of Trustee Mueller. Mr. Barra is a merchant at Leo and was formerly a teacher of the county.

GENERAL BOOTH SNUBBED.

Queen Victoria and the Prince of Wales Both Disapprove.

LONDON, Dec. 21.—In reply to a request from General Booth, commander of the Salvation Army, General Sir Frederick Ponsonby, the queen's private secretary and keeper of the privy purse, has written a note, stating that her majesty regrets her inability to subscribe to the fund being raised by General Booth for the purpose of providing a dinner for the poor on December 25. The private secretary of the prince of Wales, to whom a similar request was sent, expressed the prince's sincere sympathy with General Booth's project, but says that the prince has instructed him to inform General Booth that he intends to distribute his Christmas alms through the usual channels employed by him.

WABASH TELEGRAPHERS

The Grievance Committee Will Soon Make a Demand.

The Railway Company Preparing to Fight the O. R. K.—Six Offices Now Closed.

Nine telegraph stations on the first and second districts of the Wabash railroad will be closed—indeed, six have already been closed, in accordance with an order recently issued by G. C. Kinsman. All are day offices and the compensation of the operators has ranged from $20 to $40 per month.

The points from which instruments were ordered removed, are Marshfield, Burrows, Case, Independence, Rich Valley, Andrews stations, Ind., and Woodburn, Okolona and Colton, Ohio. The reason assigned for the closing of these offices is a desire to reduce expenses, but it is believed that the move is of far more significance than this excuse indicates.

The operators on the Wabash are preparing to make a demand for a new schedule. For two months the process of organization has gone forward and the names of all members of the Order of Railway Telegraphers have been secured with pledges to support the grievance committee in its demand upon the company. Night after night the wires are burdened with messages from the men exchanging assurances and laying plans, and before the first of January, the formal request for a readjustment of the wage scale will be presented.

During all this period, the management has been alert. Every move of the operators has been reported, and while alleging that the closing of the telegraph offices named is prompted by a determination to cut expenses, there is not a doubt but the order is the first step in heading off the telegraphers.

Electric Motor.

The north show window of M. Frank & Co. is a center of attraction at the present time.

The idea conceived by that talented young window-trimmer, Mr. Charles Snowberger, of the Bee Hive, is worthy of the highest commendation by all—an electric street car in motion, carefully trimmed with handkerchiefs, perfect in the details of construction, even to the introduction of incandescent lights. The Bee Hive motor car, with a motorman and Santa Claus as a distinguished passenger, is an artistic success.

Catarrh, Heart Failure, Paralysis of the Throat

"I Thank God and Hood's Sarsaparilla for Perfect Health."

"Gentlemen: For the benefit of suffering humanity I wish to state a few facts. For several years I have suffered from catarrh and heart failure, getting so bad I could not work and

Could Scarcely Walk.

I had a very bad spell of paralysis of the throat some time ago. My throat seemed closed and I could not swallow. The doctors said it was caused by heart failure, and gave medicine, which I took according to directions, but it did not seem to do me any good. My wife urged me to try Hood's Sarsaparilla, telling me of Mr. Joseph C. Smith, who lived been

Tinsel dealers are happy. They will have a bountiful harvest this winter.

The merry round of the Christmas shoppers has begun and the merchants are happy.

The oyster is in its glory. It is the king of table dishes during the cold months and appears in many garbs.

Dr. Barnes is acquiring too much notoriety from his trial for heresy before the Presbytery at New York for the man of mediocre ability that he is.

'Tis the early spring when the robins begin to sing," the Findlay, Fort Wayne and Western railroad, it is said, will be extended to this city. This has been the song for several years.

The legislature of this state will give considerable attention at its coming session to the subject of the improvement of the roads. With good roads every class of people, both in the city and country, are benefitted.

According to the last census the total wealth of the United States is placed at $62,610,000,000. The total capital invested in manufactories is placed at $2,900,755,88 1, or about 5 per cent. The labor employed in these manufactories is about 5 per cent of the population.

The drinking of two glasses of beer or one of whisky would furnish the means to pay for a copy of The Daily Sentinel delivered at your door every evening for a week. How much better for yourself and your family would it be that the money spent for intoxicating drinks, should be used for good reading matter! Try it our unfortunate and intemperate friend.

The retail grocers' association of the state are said to be preparing to march upon the general assembly with a large force to secure the passage of a bill to prote at them from "dead beats." The measure proposed is on the principle of the mechanics' lien law, and will compel men to pay their grocery bills. It is claimed that with such a law in force the cost of groceries to consumers, who are now paying the percentage on losses from "dead beats" would be greatly decreased.

In view of the fact that Christmas and New Year's days fall on Sunday there has been considerable discussion in commercial and financial circles as to whether the usual holiday should be kept on the Saturday preceding these days or on the Monday following them. Any one banks and other institutions the feeling seems to be in favor of following the usual practice of keeping the holiday on Monday. The stores are similarly inclined on the ground that to keep Saturday as a holiday would make it inconvenient for thousands of people to do their Christmas shopping. It is said (Monday will be observed as the holiday by most of our merchants and manufacturers.

We have received a communication denouncing a party of Germans who are selling pictures and frames through out the city. The communication states that the frames which they sell for $10 are worth about thirty cents. We cannot publish the communication because the writer fails to give us his name. It would be well for our people to buy from home merchants, whom they know, and then there would be no danger of being swindled.

There is considerable interest noticed among the agricultural societies of the state in the election of the new members of the state board of agriculture, which takes place January 4. At that time the term of eight members will expire. The other eight will hold over for another year. The members are elected by delegates from the agricultural societies of the state. Those members whose terms expire are candidates for reelection. There are also several other candidates from nearly every district.

One of the largest dry goods houses in Chicago is making the experiment of the practicability of co operation embracing both capital and labor. The plan adopted is that of capitalizing the business and then allowing trusted employes to acquire an interest proportionate to their means or desire. The management is controlled by the larger interests, but every stockholder feels an interest in the success of the business that he would not otherwise. The same experiment has been tried in New York and other eastern cities, and has been attended with great success.

Concerning the movement being made in this city for a new city charter, the Indianapolis News says: "The city charter question is said to be working itself into prominence in a number of cities of the state. Fort Wayne has been arranging to obtain a charter on the plan of that of Indianapolis, and it is said that two elements from Allen county's capital will be in the lobby, one for and the other against it. Several of the city officials are said to be against the measure, and the police department, it is asserted, will make a hard fight against it." The only persons that we know of who are opposed to the charter are those officials whose offices will be abolished, and even some of them are in favor of it in the interest of economy and better government.

Electric Railroads.

The road wagons and the short-lived top buggies and carriages of the farmer coat a very pretty penny in the course of a year, or a term of years, and they represent a service which the electric railroad can strongly exhibit. But against this saving must, of course, be set the cost of the railroads, the electric power stations, the rent of electric wagons and operating expenses. What would be the amount? An accurate estimate cannot, of course, be made here, because conditions differ so widely in different sections of the country; but as close a calculation as the Engineering Magazine can make in advance, founded on the cost of electric railroads already in operation, warrants it in saying that probably 90 per cent. of the roadways in the United States would be equipped with the necessary tracks, poles and wires, at a cost of $5,000 per mile. In a district of ten miles square—the service that could be served from a single central power station—there would be in the larger part of the union about one hundred miles of railway. Then the total cost of track for a district ten miles square would be $500,000. This represents a capitalization of only $5 to the acre and an annual interest charge of only thirty cents per acre. With a central power station large enough to operate all the wagons or cars that would be called into use at one time in the district, the capitalization need not be more than $10 per acre. This would mean an annual interest charge of $60 for each 100 acres of land. It must be conceded that this does not seem like a very heavy tax when we consider the nature of the service rendered available, the great saving in the cost and maintenance of horses and wagons, the enormous economy of time, and the greatly enhanced value of improved farm lands. If the interest charge amounted to $100 per year, and the farmers were themselves chiefly the stockholders of the electric companies, it would still represent an economy.

Scientific Education.

Information concerning the positions that graduates of scientific schools obtain is readily gained by consulting the lists of graduates usually given, with their occupations, in catalogues of the best institutions. To generalize, a scientific school of good reputation feels, in granting a diploma to a student of marked ability, that it places to his credit a fund equivalent to not less than ten thousand dollars. This statement will, doubtless, be readily understood if in instance be assumed of two young men of equal ability, one of whom graduates with honor from a scientific school at the age of twenty-two years, while the other engages in business with no assistance except his own energy and intelligence, which is true in a large majority of instances. Within four years after graduation, the young man from the scientific school will receive an annual compensation of at least fifteen hundred dollars. The young man in business will meet with more than the average of success if at the end of four years he receives three dollars per day for his services, unless he is located in New York or Chicago. Independently, then, of the great satisfaction which any educated person derives from his attainments and the greater enjoyment of the best interests of lifewhich can only be appreciated by a cultivated mind, the young man who adopts a profession within three years after graduation receives an annual income of six per cent. on ten thousand dollars, the difference between his annual salary and that of the young man in business. At the end of ten years, those who studied faithfully while at the scientific school are receiving from four thousand to eight or ten thousand dollars a year from their salaries alone, while men of equal original abilities are doing well if they can earn three thousand dollars; with out imperiling capital of their own

STATE NEWS.

The Hartford City board of trade has elected Geo. R. Bell president, R. G. Tonly secretary and W. L. Von Cleve, treasurer.

A village watchman at Roann was entertained by an interesting stranger while a confederate robbed Gidley's hardware store of $300 worth of goods.

The Doxey opera house orchestra at Anderson is on strike. A piano now serves to lift and drop the curtain. The musicians had organized and raised prices.

Frank McCormick was adjudged not guilty of murder by a jury of honest citizens, at Salem. He was charged with killing Chas. W. Dole, at Brownstown, April 28.

The proposition to make Grant and Huntington counties each a circuit by itself is favored by members of the bar. This would make necessary the joining of Blackford and Wells counties.

News comes from Red Key that a railway will be built through the heart of the gas belt, the terminal points being Kokomo and that place. The construction company, of Chicago, is behind the enterprise.

The new Christian church at New Mt. Pleasant, Jay county, was dedicated on Sunday. The dedicatory services were largely attended and were conducted by the Rev. Mr. Snodgrass, assisted by visiting ministers.

"Babe" Hawkins has again appeared on the rialto at Shelbyville. This time he has instituted proceedings against saloon men, whom, he claims, sold him whisky the day he and Jackson made the assault upon John Chambers.

Joseph Zollinger died at Goshen yesterday, aged sixty-nine years. For twenty-seven years his family has taken its New Year's dinner with the families of O. T. Dewey and David Berkey, and this is the first death in the three large families in that time.

One of the most successful of the new productions of the past two years was the comedy drama, of "Friends" by Edwin Milton Royle, which was brought out last spring at the Standard theater, New York. The play itself, unconventional as to method and matter, was hailed as the type of a new school of idealistic realism, and was remarkable for its literary qualities as for its appeal to homely public taste. The play will be presented at the Masonic Temple tonight.

The Hon. John F. Smith, of Westminster, Md., judge of the circuit court of Carroll county, Md., says: "I have used Salvation Oil for rheumatism. Its effects were prompt and lasting."

Mr. and Mrs. Henry Stratton, of Valparaiso, will spend the holidays in the city as the guests of Dr. and Mrs. Coyle.

That true friend to all suffering with colds and coughs, Dr. Bull's Cough Syrup, will always help and never disappoint you, as other cough remedies do.

FORGED CHECKS.

John W. Schafer, a West Third Street Grocer, is the Latest Victim—No Clue to the Forger.

A large number of forged checks have been circulated about the city for the past few weeks and no less than twenty-five or thirty have been cashed by our merchants. The last man to be caught up is J. H. W. Schafer, the grocer, of No. 143 West Third street. Yesterday afternoon about 4 o'clock he cashed a check for $4 29, drawn in favor of James Warren and signed by S. F. Bowser & Co. The check was numbered 147 and was endorsed by James Warren. The fellow who presented it bought a pound of plug tobacco and a pound of coffee and received the balance in cash. Mr. Schafer at once reported the matter to Lieutenant Lupp but the only thing he remembered about the man was that he was small in stature and wore a dark overcoat. S. F. Bowser & Co. have issued the following notice to the public:

"Recently there has been about half a dozen checks forged with our name to them, two of which came to our notice today, and as we issue a great many checks which are cashed all over the city, we wish to say that we do our banking at the Old National bank, and all our checks have our name and business printed at the top. All are numbered with a numbering machine in red ink. Believing this notice due the public, we trust they will not be further imposed up."

Puff Brothers, of No. 323 Hanna street, were also victims. They cashed a check for $6 for the same man, drawn in the same manner as that on Mr. Schafer. Both checks were made payable at the Old National bank.

MONTGOMERY HAMILTON

Is Being Urged as Minister to Norway and Sweden.

Friends of Montgomery Hamilton, of Fort Wayne, Ind., are suggesting that he would be an admirable representative of this government as minister to Norway and Sweden. The Terre Haute Gazette pays him this compliment: "This is the position held by Hon. Rufus Magee, of Logansport, during the first term of President Cleveland. An Indianian having held the post before, naturally suggests the propriety of another Indianian being sent there now. Mr. Hamilton comes from a section of the state that has always given a democratic majority. Allen county's majority has often saved the state and has not infrequently been greater than the party's majority in the state. Montgomery Hamilton is one of the leaders of the democracy. He possesses the Jeffersonian qualifications for this office with which his name is associated, or for any office to which he might aspire. He is a man of fine natural ability, well educated, widely read, astudient, scholar and gentleman and his appointment would be an admirable one in every way."

HOMELESS.

Five Families Lose Everything by a Destructive Fire.

McKeesport, Pa., Dec. 21.—A fire in Duquesne, a suburb of this place, discovered about 7 o'clock this morning, partially destroyed the Oliver block and several adjoining buildings, rendering five families homeless. The fire originated in a paint shop, in the basement of Fred Hendricks' home. The town being without fire protection, the fire was fought by a bucket brigade. The total loss is $10,000. William Oliver is the heaviest loser, his loss being about $7,500. An attempt was made to check the flames by blowing up the building with powder, but it proved a failure and only increased the fury of the flames. It was under control at 10 a. m.

GLADSTONE'S VOYAGE.

He Sets Sail for Southern France on a Pleasure Jaunt.

London, Dec. 21.—Mr. Gladstone, who intends to spend a short vacation in the south of France, embarked upon a channel steamer at Folkestone today. The sun was shining brightly and the weather was balmy. Mr. Gladstone went aboard the steamer sometime before the hour set for her sailing. He at once proceeded to the upper deck, where he sat for an hour. A large crowd of his friends and admirers were on the steamer to bid him adieu. When they went ashore they remained on the wharf, and as the steamer headed out they gave Mr. Gladstone an ovation. He acknowledged their cheers by bowing and waving his hat at them.

Steamer Sunk.

Lisbon, Dec. 21.—The cape steamer Nubian, which stranded while entering Lisbon yesterday, is sunk to the topmasts and will probably be a total loss. The steamer is close in shore, but only the topmasts are visible. No lives have been lost.

Catarrh in the head is a constitutional disease, and requires a constitutional remedy like Hood's Sarsaparilla, to effect a cure.

Stop-Over Privileges Discontinued.

To avoid manipulation and illegitimate use of its tickets, the Wabash Railroad company has found it necessary to discontinue the granting of stop-over privileges on all kinds and classes of tickets, and after January 1st, 1893, passengers will be obliged to purchase tickets from point to point. The new arrangement, however, which will be fully explained by any of the company's agents, will be found to be equally as convenient to the traveling public as the old, while the company will be enabled to protect itself from imposition. 17-15t

COAL THIEVES.

Charlie Hostman Causes Two of Them to Beat a Hasty Retreat.

Several nights ago thieves entered the coal house of Christ Hostman, the well known backman, at 36 West Jefferson street and stole nearly a half ton of coal. Monday night they paid another visit to the place. It was after 11 o'clock, and while the fellows were endeavoring to secure an entrance to the coal house, Mr. Hostman's son Charlie, who is a clerk at Spencer's cigar store, arrived home from the theater and detected them. The rascals with their baskets fled down the alley on his approach and escaped. There is a good deal of this sort of petty thieving going on and if the miscreants were apprehended and punished for their crime, or a charge of shot put into their carcasses, they might be taught a lesson that would be beneficial.

Day Resigns.

New York, Dec. 20.—At a meeting of the New York base ball club yesterday Mr. John B. Day tendered his resignation of the presidency. No action was taken on the matter. The treasurer's report shows a loss of $32,001 69 for last season.

SCROFULOUS BABY

Our Family Physician Recommends Cuticura Remedies, and Says They Cured Our Child.

Father Went 25 Miles to Get Cuticura, and Feels Thankful and Wants Others to Do as He Did.

My child broke out with scrofula when two months old, and we tried everything that we could do. It took out his hair and broke out on his cheeks and nose. I saw the CUTICURA REMEDIES were recommended by our doctor who attended him, and he now abiding here. The doctor said CUTICURA REMEDIES cured my child, and recommended them for all diseases of the skin and blood. It did not take but one set of CUTICURA REMEDIES. I went twenty-five miles to get them. My child is well and has a fine head of hair so can be, for which I feel thankful to you, for my wife is in bad health. I have recommended CUTICURA REMEDIES to others. Use this if you think it will cause my person to do as I did.

D. F. PENSON, Langley, Pike Co., Ark.

I am the doctor that recommended CUTICURA REMEDIES to D. F. Penson. I have known them to work wonders in the case of skin and blood diseases, and I say they are good.

MISS MARY E. BROOKS, M. D.

INDUSTRIAL NOTES.

"The Sentinel" Representative Calls on S. F. Bowser & Co.

A Chapter of Accidents, Incidents and Personal Gossip as Gathered by Our Reporter.

THE SENTINEL reporter dropped into the office of the Bowser company, on East Creighton avenue, last evening and found everything in that busy place running along smoothly. This is a comparatively new establishment, but during its short existence it has been progressive and today it gives employment to forty people, owing to the partial failure of the gas supply yesterday the engine was shut down at noon and the machinery was idle during the afternoon, but in the office eight or ten clerks were busily engaged in writing letters, doing up circulars, etc., and the scene was a lively one. Among the clerical force the reporter noticed J. W. Wells, A. J. Pelhamus, Robert Craig, the Misses Kittie Kohler, Stella Stierheim, Maud Keplinger, Bessie Bledsoe and Bertha Winbaugh. Mr. Bowser was not in, but he was ably represented by Mr. Pelhamus, and from the latter the reporter learned that the works were running to their full capacity with forty operators, and with this large force it was almost impossible to keep pace with the orders for the tanks and dust pans. The firm will soon add the manufacture of a patent hair curler to its other business. This is a novel little article, gotten up expressly for the ladies and will become very popular with them. The machinery for the manufacture of the curlers will soon be in position and when this branch of the establishment is in full operation the working force will undoubtedly be increased. The SENTINEL is pleased to note the prosperity of the S. F. Bowser company.

BRIEF MENTION.

The Pittsburg shops will be closed Monday for inventory.

Nickel Plate Engineer John McFarren is sick and off duty.

William Block, an employe of the Bass boiler shop, is on the sick list.

This morning the truckmakers took up an order for a number of gondola cars.

Peter Anderson and Charles Greese, of the Bass blacksmith shop, are sick and off duty.

W. Henschen, of the Pittsburg car shop, has returned to his duties after a siege with sore eyes.

Boilermaker William Cherry, of the Pittsburg shops, is off duty today looking after some private business.

George Petsinger, of the Pittsburg boiler shop, is off duty preparing for his wedding, which takes place tomorrow.

C. H. Fernald, of Westfield, Mass., was the guest of the S. F. Bowser company, whom he represents in his state, yesterday.

Within the last thirty days, on one division of the Big Four, three engineers and five trainmen have been discharged for using intoxicating liquors too freely.

D. L. Judy, of the Pittsburg machine shop, and his wife left yesterday for Pennsylvania, where they will spend several days each in Altoona and Pittsburg.

Charles Norman has been transferred from the machine shop to the Pittsburg round house. The change is only temporary, and January 1 Charlie will go back to his old position.

Eighty-five per cent. of the employes on the Pennsylvania lines west of Pittsburg, not including those on the extra list, are now members of the Pennsylvania Voluntary Relief association.

Daniel Edwards, the veteran car inspector's foreman at the Pittsburg depot, is quite ill. He has been confined to his bed for a week. Steve Schollenberger now has charge of the car inspectors.

A locomotive engineer suggests that the brotherhood should get up a social meeting, similar to the one held in Jackson, Mich., for this city. Chief Arthur would undoubtedly come here to attend it.

C. E. Saunders, representing S. F. Bowser & Co. in Michigan, was in the city yesterday en route to Butler, Vt., where he will spend the holidays with the parents of his wife. Mrs. Saunders went to that city last week.

The management of the Tangent line, the Findlay, Fort Wayne and Western company, have bought and have on route enough steel rails to extend the line sixteen miles west from the present terminus at the Mackinaw junction. The grading has been nearly completed to Fort Wayne. The line will also be extended on east from Findlay early in the coming year.

Yesterday was pay day at the electric works.

Fireman C. A. Snyder, of the Pittsburg, is sick.

Pittsburg Engineer W. L. Scott is sick and off duty.

George Bradley, of the electric works, is on the sick list.

Engineer William Doty has resumed his run on the Pittsburg after a sickness.

Engineer P. Shea has gone to New Haven to attend the funeral of his cousin.

A. H. Pelhamus went to Chicago last evening in the interest of the Pennsylvania company.

Engineers J. Worman and J. Lanigan, of the Pittsburg, are looking after business affairs today.

Engineer M. F. Shea, of the Pittsburg, is off duty on account of the death of his brother, Dennis.

Joseph Kluger, an employe of the electric works, is very ill. He has been suffering for over a month.

Nickel Plate Conductor Boecker and Brakeman Ferguson have returned to their duties after a short absence.

Conductor Cherry, who was on the Nickel Plate extra list, has been given a through freight run on the third district.

Passenger Conductor James Rowan is off on a week's vacation, which he will spend with his brother in Wisconsin.

Jack Scudley, of the Pittsburg car shop, sports a big boil on the back of his neck. He is off duty awaiting developments.

Brakeman Craighead has been granted leave of absence. Brakeman Hunt is on the sick list. Both are employed on the Nickel Plate.

Conductors Miller, Hilbish and Smith, of the Nickel Plate, are off duty, the former to rest and the latter on account of sickness.

T. J. Kucher, stenographer in Supt. C. D. Law's office, and his sister, Miss Martha Kucher, left yesterday for Chicago to spend a few days with relatives.

Engineer R. M. Jones, of the Pittsburg, is moving into his new house at the corner of Suttenfield and Harrison streets today. He is off duty for that purpose.

J. Larimore and P. VanMatime, Pittsburg firemen, are on the off duty list, the former on account of sickness and the latter on account of private business.

Mesdames Ed Erickson and Charles Zeigler have gone to Huntington to attend a reception given by Erie division, No. 16, Ladies' Auxiliary to the Order of Railway Conductors. The ladies will return tomorrow.

T. E. Hendrix, telegraph operator for the Pennsylvania company, will shortly leave the city for the east, where he expects to remain until spring. He is the son of George A. Hendrix, a conductor on the Pittsburg road.

The following Pittsburg machinists will spend Christmas out of the city: Capt. Hugh Diehl, Pennsylvania; J. A. Ludington, Chicago; J. D. Harris, Bellefonte, Pa.; J. H. Hoy, Pennsylvania; W. O. Bassett, Lima, Ohio, and William Harrison, Chicago.

Mathias Baches arrived in the city today and is now at the bedside of his father, whose condition is such as to give grave apprehensions concerning the result. Mat is the foreman of the boiler shop in the Pennsylvania company's work at Wellsville, Ohio.

A steel shaving eighty-six feet and six inches in length is being exhibited to the callers at Peltier's undertaking establishment. This shaving came came from a round piece of steel fifteen inches long which was being dressed in a lathe at the electric light works. A machinist who has worked in the Pittsburg shops in the city for twenty years, said that this shaving is the longest one he ever saw.

Most of the employes of the Kerr Murray works have been suspended for two weeks.

Rev. Edward Matthews, of the Free Methodist church, has taken a position in the Bowser Oil Tank works. Rev. Matthews is a fine machinist and during his stay in Africa he had charge of a manufacturing establishment for three years. He came to this country with Bishop Taylor.

At the hour of 12 last night Peter Simmons, an employe of the Pittsburg roundhouse, had his right arm fearfully mashed in the engine turntable. He was taken to his home, at 20 Pontiac street, where Dr. Geo. C. Stemen dressed the injured member. Simmons may lose his arm, though an effort will be made to save it. He is a married man.

Railway station agents of northern Indiana, who formed an association some months ago, met at Huntington Saturday night and elected officers for 1893, as follows: President, C. E. Gilbert, Huntington, Chicago and Erie railway; first vice president, M. J. Hoffer, Brazil, Vandalia; second vice president, I. E. Bernethy, North Judson, Pan Handle; secretary, L. J. Burdge, North Manchester, Chicago and Erie; treasurer, C. J. Stowe, North Manchester, Wabash.

Early yesterday morning as freight train No. 74, in charge of G. A. Hendrix, on the Pittsburg, Fort Wayne and Chicago road, was passing through Hanna at a high rate of speed, a rail turned over beneath the train, but fortunately the cars passed over the gap allright. Mr. Hendrix succeeded in getting of without injury and flagged No. 40, a passenger train, which is due here at 1:55 a. m., in time to avert a terrible accident, which might have resulted in loss of life.

The outlook is thought to be good for the legislature taking in hand the sleeping car and express companies who operate in the state, and greatly increasing the amounts which they are now paying into the state treasury in the way of taxes. Their rates are said to be low, while they enjoy as much protection under the law as companies who are rated high. It is more than probable that the companies will protest against the proposed legislation and make a hard fight against another measure which may be introduced, cutting down their rate of prices now in vogue.

B. F. Smith, superintendent of the Pennsylvania Lines Voluntary Relief department west of Pittsburg, has issued the monthly bulletin for November. It shows that $7,750 was disbursed in death benefits from accidents, and $1,000 in death benefits from natural causes; $6,142.50 in accident benefits, and $3,149.60 in sickness benefits, making the total disbursements of the months $19,632.10. Eleven death benefits were paid, 417 accident benefits, and 439 sickness benefits. In the forty-seven months the association has been in operation it has paid out in death benefits $295,000, in disablement benefits, $108,250.07; total relief fund benefits paid, $691,310.07.

The Findlay, Fort Wayne and Western railroad, (Tangent line), have extended their passenger service to the Cincinnati, Jackson and Mackinaw railway, connecting with them at Haviland. The new time card, which went into effect December 15, shows four trains per day both ways between Findlay and Haviland. This is excellent service for a comparatively new line, but the roadbed is in perfect condition and their passenger traffic is constantly increasing. Train No. 4, scheduled to leave Haviland at 1:40 p. m., makes remarkably fast time, exceeding the time made by several of the so-called "limited trains" on the through lines. The present western terminus, Haviland, is 48.73 miles west of Findlay, but the grade is completed to the Indiana line. Iron will be laid to the Indiana line this month, and to Fort Wayne in the early spring.

To Prevent the Grip

Or any other similar epidemic, the blood and the whole system should be kept in healthy condition. If you feel worn out or have "that tired feeling" in the morning, do not be guilty of neglect. Give immediate attention to yourself. Take Hood's Sarsaparilla to give strength, purify the blood and prevent disease.

"T. C. Burnett, the democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. He finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which revived him until a physician arrived. That is precisely what the manufacturers of the medicine recommend for cholera. Send for a physician, but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand, because it can always be depended upon. For sale by druggists.

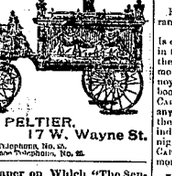
CHILDREN who are puny, pale, weak, or scrofulous, ought to take Doctor Pierce's Golden Medical Discovery. That builds up both their flesh and their strength. For this, and for purifying the blood, there's nothing in all medicine like, or equal the "Discovery."

In recovering from "Grippe," or in convalescence from pneumonia, fevers, or other wasting diseases, it speedily and surely invigorates and builds up the whole system. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength.

For all diseases caused by torpid liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin, and Scalp Diseases—even Consumption (or Lung-scrofula) in its earlier stages—the "Discovery" is the only positive remedy.

Or if it doesn't benefit or cure, in every case you have your money back.



Makes an every-day convenience of an occasional luxury. Pure and wholesome. Prepared with scrupulous care. Highest standard of excellence. Two sizes. Each package makes two large pies. Avoid substitutes—and insist on having the NONE SUCH brand.

MRS. W. H. GOUTY

Adds Her Personal Testimony—Success of the New Lung Treatment.

Since it was first announced to the public that Doctor Stackhouse had made discoveries resulting in an altogether new system of lung treatment and that the new treatment was doing wonders in cases of incipient consumption, the offices of the Stackhouse Medical Institute have been visited by hundreds who had once thought themselves beyond the reach of medical treatment.

It requires but a short time to demonstrate to any lung sufferer the efficacy of the new lung treatment.

Again and again it has proved a distinct and undeniable success.

It is proving an infallible cure for Consumption in the stage known as bronchial catarrh.

By this time it is known in every family in which THE SENTINEL is read that Doctor Stackhouse and his associates have a cure for dangerous lung disorders and that it is working the most wonderful results.

That there can be no misunderstanding as to the claims made for this practical and successful system of treatment, the following announcement is repeated today:

The Stackhouse Lung Treatment, in every case, relieves bronchial suffering and stays the progress of disease in patients with a tendency to consumption. It cures consumption in every case if taken in the stage of bronchial catarrh and in many cases effects cures even in the later stages.

Simple Method of Removing Wrinkles

It is easier to remove wrinkles than to eradicate any other defect of the face and yet we daily see many faces, otherwise beautiful, rendered prematurely old by that shrinkage of the tissue so call wrinkles. A simple, but positive, treatment is Marquard's Rose Cream, which not only disperses wrinkles speedily but also removes pimples, blotches, eruptions and freckles, exquisite glow and transparency to the complexion. WASHINGTON, Dec. 21.—Forecast till 8 p. m. Thursday. For Indiana—Local snows, variable winds, becoming northwesterly.

FRESH LOCAL LINES.

W. R. Snyder, of Muncie, Ind., is in the city today.

L. Utton, of Force street, is the father of a new baby boy.

Rev. Updike delivered a lecture at Anderson, Ind., last evening.

A lecture against spiritualism will soon be delivered at the Temple.

R. T. McDonald and private secretary left for New Orleans yesterday.

John Stanger will return from Allegheny, Pa., to spend the holidays with his parents.

Mrs. Ed Eriekson and Mrs. Charles Zeigler have gone to Huntington to visit for a few days.

Mrs. O. C. Hutchinson, of West Main street, leaves Thursday to spend the holidays in Michigan.

There was one lonely drunk in police court this morning. The fellow put up his money and kept out of jail.

Mrs. H. L. Baumgartner, of Mechanicsburg, Ohio, is the guest of Mrs. Peter Smyser and will remain until after the holidays.

The German Dramatic club gave another one of their delightful dramatic entertainments and balls at Schroeder's hall last evening.

Mrs. E. Jamey, of 35 Greene street, is confined to her bed from the effects of a rusty nail run in her foot Saturday morning. Dr. Sturgis attended.

John G. Blake, superintendent of the school for feeble minded children has returned from Indianapolis, whence he had gone to file his annual report with the governor.

A meeting of the citizens will be held this evening at the superior court room tonight to hear the report of the committee who have the preparation of a new city charter in charge.

Master Oscar Kruse, of East Lewis street, suffered quite severely last Saturday evening, with a bad attack of bronchitis. Dr. Boswell was called and soon had the little fellow resting easy.

The Wabash Plain Dealer says: "Mrs. E. M. Wilson came down from Fort Wayne today to spend the holidays. She was accompanied by Miss Flora McCree, who has been visiting her."

The natural gas supply is much stronger today than yesterday. Much trouble was experienced yesterday by the shotage of gas, particularly at the big hotels, where it was a difficult matter to get the meals.

J. B. Olinger and wife, of New Haven avenue, will leave Saturday morning for Wellsville, Ohio, to spend Christmas with J. D. Byanskie and wife. Mrs. Byanskie is a sister of Mrs. Olinger and formerly resided in this city, where her husband held a position in the Pittsburg machine shop.

Jack, the Peeper, is annoying the residents of Charles street nightly. The ladies of that thoroughfare have banded themselves into a vigilence committee and are after the peeper's scalp. If he falls into the hands of the fair ones there will be a funeral a day or two later and Jack, the Peeper, will be the victim.

Miss Maggie Manary has returned from Chicago, where she has been for a year past, under treatment. The young lady has paralysis of the throat, brought on by la grippe three years ago and it is doubtful if the voice will ever return. The young lady is a daughter of John Manary, of the Pittsburg car shop.

Mrs. Evard died at her home, eight miles from the city on the St. Joe road, on Sunday night, at the age of eighty-six years. She was born in Switzerland on the 25th day of November, 1806, and came to this county with her husband in July, 1850, Mr. Evard dying about ten years ago. The deceased left three sons and one daughter. The funeral took place this afternoon at the Bowers chapel, the services being conducted by Rev. A. K. Zartman, Mrs Evard being a member of the Grace Reformed church.

Abraham Weaver, of this city, is visiting friends at Richmond, Ind., and the Daily Telegram has the following to say about him: "Abraham Weaver, of Fort Wayne, is circulating among comrades of the Eighth Indiana in this city. Mr. Weaver was for years a resident of this city, and was among the first to respond to President Lincoln's first call for volunteers. At the close of the three months' service he re-enlisted in the Eighth Indiana, and remained in it until near the close of the war, when he lost an arm in battle. This is his first visit here for twenty years, and he was made sad to learn that many of the comrades for whom he inquired had gone to join the majority in the 'bivouac across the river.'"

THE rain-makers were always successful in wet weather, but when a drought was prevailing their chemicals wouldn't work, or the wind blew in the wrong direction, or their stovepipe wasn't tall enough; there was always something wrong. And so the farmers lost faith in them, as was only right and natural; and now they will organize picnics in the good old way when rain is needed, and then rain will come.

A MAN named Calvignac over in France was a faithful employe of a mining company. Fortune elected him Mayor and he neglected his vulgar duties for those of office. Then his employers bounced him and all his associate miners struck. So began an industrial war that has paralyzed Carmaux. But firm and unflinching Mr. Calvignac holds onto his office. He is much like other people.

The Remington Typewriter.

For Excellency of Workmanship Superiority of Design, Easy Manipulation, Great Simplicity, Durability, Speed, The REMINGTON TYPEWRITER Is Absolutely Unrivalled.

To Intending Purchasers of Typewriters:—

The report spread by interesting parties, that the International Business College have, or intend to, exchange their score of Remington Typewriters, for Smith Premiers, is not true.

The Remington will be used by them, exclusively, as long as it remains the best of Typewriters. The report that our leading Court Stenographer has changed his Remington for a Smith Premier also is devoid of truth. After a thorough trial of the Smith Premier he changed his old Remington for a NEW Remington, because, as he states in a letter:—

"My experience convinces me that the NEW REMINGTON easily leads them all and is 'THE' PRACTICAL MACHINE among all machines, without exception. Hence, I recommend it."

A. C. KATT sells Remington Typewriters.

For Sale Cheap—One Smith Premier, second hand; one Smith Premier new.

PIANO AND ORGAN EMPORIUM.

The world famed Steinway Pianos superb in tone, and beautiful of structure, in all fancy woods. Call and see a beautiful

WHITE MAHOGANY PIANO!

Now on exhibition in his wareroom. Nothing like it ever before seen in this state. Dividing honors and patronage with the

Gildemeester & Kroeger,

Next to the Steinway in

TONE, ACTION AND EVENESS OF SCALE.

This firm has had a wide experience in piano making. Mr. Kroeger having been superintendent of Steinway & Son's piano factory for twenty years, and Mr. Gildemeester superintendent of Cook ring & Son's piano factory for thirteen years.

The value of such diverse experiences being united is inestimable and sufficiently justifies the claim of the makers to stand in the front rank of America's foremost piano manufacturers.

A full line of these and other fine Pianos and Organs; also the most extensive line of guitars, mandolins, violins and sheet music kept in the city.

Visits of inspection cordially invited.

A pleasure, not a trouble to show goods.
